**Grand Island School District Messenger:**

Dear Grand Island Families: As you may be aware, the Governor has lifted the Orange and Yellow zone designations in the WNY area. As a result, random COVID-19 testing will not need to continue in schools after this week.

It is important to note that the COVID-19 virus remains active and elusive, even if infections are declining and some restrictions are lifted. Please continue to be vigilant in your efforts to mitigate the risk of spread. Thank you!
